LeetCode

Portfolio

EDUCATION

MJP Rohilkhand University, Bareilly
Bachelor of Technology in Computer Science

2023 – 2027
Bareilly, India

EXPERIENCE

Digital Mongers
Software Developer Intern

Apr 2026 – June 2026
Bareilly, India (On-site)

- Developed production-ready full-stack web applications using **Next.js, React.js, Node.js, Express.js, and MongoDB**, integrating secure **REST APIs** with **Axios**, Fetch API, and **Zustand**.
- Engineered a secure authentication and authorization system using **JWT**, implementing OTP verification, password reset workflows, protected routes, and RBAC to enhance application security and user management.
- Optimized backend services, API integrations, and validation workflows with robust error handling, improving API reliability, scalability, performance, and data security across multiple applications.

InvisiaX
Software Developer Intern

Jan 2026 – March 2026
Remote

- Developed **Campus Pulse MVP**, a scalable college ID verification platform using **React Native, Node.js, Express.js, and MongoDB**, reducing manual verification time by **60%**.
- Engineered an end-to-end document verification pipeline with **Google ML Kit**, achieving **95%+ accuracy** across **10+ ID formats** and reducing false rejections by **35%**.
- Designed secure validation and verification workflows with robust backend processing, improving reliability, data consistency, and overall user onboarding experience.

Freelance Software Developer
Organic Herbs & Honey — Next.js E-commerce Application

Dec 2025
Remote

- Developed a **Next.js-based e-commerce storefront** with **SSR and SEO optimization**, delivering a fast and responsive user experience.
- Integrated **Notion API as a headless CMS** for dynamic product management and implemented **cart management** using **Zustand** with a **WhatsApp/Email checkout flow**.

PROJECTS

DevPilot AI – Multi-Agent Developer Assistant | Python, FastAPI, CrewAI, FAISS, Redis

- Built a production-grade AI developer assistant with **hybrid BM25 + FAISS retrieval** and **AST-based code chunking**, enabling accurate semantic search across large codebases.
- Implemented **Redis caching** and dual **short-term/long-term memory** systems to improve response latency and maintain context across multi-step developer interactions.
- Engineered a **multi-agent orchestration pipeline** (Planner → Coder → Reviewer → Debugger → Executor) using **CrewAI**, featuring structured agent communication, **SSE streaming**, and sandboxed code execution.

SkillForge – AI Career Platform | Next.js, PostgreSQL, Prisma, Redis, Docker

- Engineered a **full-stack AI platform** delivering **resume generation, mock interviews, and AI-driven roadmaps**; integrated **Gemini API** with **Redis caching and rate limiting** for optimized performance.
- Architected **secure authentication** (Clerk) and **event-driven workflows** (Inngest); **Dockerized** and deployed on **Vercel** with **Neon PostgreSQL** for scalable production deployment.

VOX HIRE – AI Recruiter Voice Agent | Next.js, Supabase, Vapi AI, Tailwind CSS

- Built an **AI-powered recruitment platform** using **Next.js, Supabase, and Vapi AI** for voice-based interviews, supporting **50+ interview sessions** and reducing manual screening efforts.
- Integrated **Gemini LLM** for candidate evaluation, scoring, and automated feedback generation; **Dockerized** the application for scalable deployment and streamlined development workflows.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, C++

Frontend: Next.js, React.js, Tailwind CSS

Databases: MongoDB, PostgreSQL, Redis, Prisma

AI Engineering: LangChain, RAG, FAISS, CrewAI, Multi-Agent Systems

Tools: Git, Docker, Vercel

Backend: FastAPI, Node.js, Express.js, REST APIs

Core CS: DSA, OOP, DBMS

ACHIEVEMENTS

- Solved **500+** problems on **LeetCode**.
- Secured **1st Position** in **Agglomeration**, an inter-college DSA Coding Competition with **2 rounds**.
- Secured **1st Position** in an inter-college Debugging Coding Competition with **3 rounds**.
