LeetCode

Portfolio

EDUCATION

MJP Rohilkhand University, Bareilly

Bachelor of Technology in Computer Science

2023 - 2027

Bareilly, India

EXPERIENCE

InvisiaX

Jan 2026 – March 2026

Software Development Engineer Intern

Remote

- Developed the **Campus Pulse MVP**, a secure **college ID verification system** using **React Native**, **Node.js**, **Express.js**, and **MongoDB**, reducing manual verification time by **60%**.
- Engineered an end-to-end **verification pipeline** (ID upload → OCR/QR extraction → validation → status update) using **ML Kit**, achieving **95%+ data extraction accuracy**.
- Designed and implemented **scalable validation logic** supporting **10+ ID formats**, ensuring accurate verification of student credentials and reducing false rejections by **35%**.
- Built backend-driven **data validation and processing workflows**, improving system reliability and enabling efficient handling of low-quality ID scans.

PROJECTS

SkillForge – AI Career Platform | Next.js, Prisma, PostgreSQL, Gemini API

- Built a **full-stack AI career platform** using **Next.js**, **Prisma**, and **PostgreSQL**, delivering features like **resume building**, **mock interviews**, and **AI-driven learning roadmaps**.
- Integrated **Gemini API via OpenRouter** for **resume analysis and job matching**, implementing **Redis caching and rate limiting** to improve API performance and reliability.
- Engineered **secure authentication** with Clerk, orchestrated **background workflows** using Inngest, and **Dockerized the application** for scalable deployment on Vercel with **Neon PostgreSQL**.

VOX HIRE – AI Recruiter Voice Agent | Next.js, Supabase, Vapi AI, Tailwind CSS

- Developed an **AI-powered recruitment platform** using **Next.js**, **Supabase**, and **Vapi AI** for **voice-based candidate interviews**, supporting **50+ interview sessions**.
- Engineered **automated interview workflows** for question delivery, response handling, and screening, reducing **manual recruiter effort** and saving **8+ hours per week**.
- Integrated **Gemini LLM** for **response evaluation**, **candidate scoring**, and **feedback generation**, and **Dockerized the application** to enable **scalable, consistent, and efficient deployment**.

GitPal — AI Developer Teammate CLI | Node.js, CLI, AI Integration

- Developed and **published GitPal on npm**, a **Node.js CLI tool** powered by the **Gemini API** for **code explanation**, **quiz generation**, and **coding challenge creation**.
- Engineered support for multiple **programming languages** through **AI-driven developer workflows**, enhancing interactive code learning and usability.
- Designed a **modular CLI architecture** with **structured error handling**, **JSON-based progress tracking**, and extensible support for multiple file types.

TECHNICAL SKILLS

Languages: C++, JavaScript (ES6+)

Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, PostgreSQL, Redis

Tools & Platforms: Git, GitHub, Postman, Prisma, Docker, Vercel

AI / APIs: Gemini API, OpenRouter, Vapi AI

Core CS: Data Structures & Algorithms, OOP, DBMS, Computer Networks

Achievements

- Solved **500+** problems on **LeetCode**.
- Secured **1st Position** in **Agglomeration**, an inter-college **DSA Coding Competition** with **2 rounds**.
- Secured **1st Position** in an inter-college **Debugging Coding Competition** with **3 rounds**.
